

# Recycling Instructions

Every building in Suurpelto has garbage cans for waste paper, mixed waste and biowaste. In addition courtyards of houses you can find recycling bins for cardboard, glass and metal.

In waste container terminal you can find container for **medium-sized** mixed waste which does not fit in the waste pits. Waste terminal is located in Henttaankaari.

Biowaste and mixed waste must be placed in a bag. Biowaste must have its own, biodegradable bag, mixed waste can be placed in e.g. regular grocery store plastic bags. Close the bag carefully.

The waste hatch will only accommodate one bag (with a size of no more than 20 liters) at a time. You can not place any long or large items in the system. Wrong object may cause a malfunction and an extra operating costs.

## **YOU CAN NOT PLACE ANY OF THE FOLLOWING ITEMS/MATERIALS IN THE TUBE:**

Mattresses, Christmas trees, clothes, ice hockey sticks, folders, tree branches, corrugated board, pans, polystyrene, microwave ovens, toasters and other devices/appliances and hazardous waste

# Recycling Instructions

**MIXED WASTE** Plastic bags, diapers, dirty packages, small plastic items

**REMEMBER** A regular plastic bag is well suited for the task – but leave one third (1/3) of the bag empty and close it carefully

**PAPER** Newspapers, magazines, advertisements, brochures, catalogues, copy and drawing paper, soft-cover books, paper bags and envelopes made of white paper

**REMEMBER** Avoid blocking the tube - throw papers loose or in small unbound bundles. Do not place them in brown paper bags or plastic bags.

**BIOWASTE** Leftovers from meat, fish, fruit, bread and vegetables; eggshells, coffee grounds, filter bags, kitchen paper and cut flowers

**REMEMBER** Use biodegradable bag for biowaste; be sure to close the bag carefully

**CARDBOARD** Milk and juice cartons, cereal and cookie packages, sugar and flour bags, pastry boxes, egg cartons, cardboard packages of beverages, paper roll cores, plastic surface wrapping paper, paper bags

**REMEMBER** Rinse liquid containers after use, flatten and place inside an empty container. Tear up pizza boxes before placing them in the tube

**RECYCLABLE GLASS** Glass bottles and jars

**HOUSEHOLD METAL** Tins and beverage cans, aluminium dishes, foil, metal lids and caps, empty and dry paint cans, empty aerosol bottles, small metal items(hinges, screws and cutlery)

**HAZARDOUS WASTE** You may take hazardous waste to hazardous waste containers located in the yards of gas stations and stores. You may also take the waste to Sortti stations or to HSY's waste trucks. The closest Sortti station is located in Ämmässuontie 8

**RECYCLING CENTRE** The closest recycling centre is located in Kutojantie 3. You should recycle useful objects
